

REV	DATE	ECN NO.	MODIFICATION	APPROVER
B	2010/12/17	RD00310121701	版本升级	HYQ
C	2012/04/13	RD00312041301	增加夹持盖和尺寸管控	<i>Fason_Lee</i>
D	2015/11/30	RD00315113001	新增10P以上夹持盖规格	<i>Fason_Lee</i>

Technical drawing of a rectangular concrete slab. The drawing shows a top-down view of the slab with dimensions and reinforcement details. The overall width is labeled $C \pm 0.20$ and the overall length is labeled $B \pm 0.10$. The slab is supported by four columns, with the width of each column labeled $A \pm 0.10$. The distance between the columns is labeled 1.00 ± 0.05 . The slab has a thickness of 0.35 and a cover of 0.60 . The reinforcement consists of No.1 bars, with a spacing of 0.20 ± 0.02 between the bars. The drawing also shows a cross-section of the slab, indicating the cover and the reinforcement bars.

PCB Layout

1. Material:
Housing: Thermoplastic, UL94V-0,color:Natural .
Contacts: Copper Alloy.
Tin/Gold plated over nickel plated
Solder tab: Copper Alloy.
Tin/Gold plated over nickel plated
Cover: Thermoplastic, UL94V-0,color:Natural .

Voltage rating: 50V(max).
Current rating : 0.5A(max).
Operating Temperature: -25°C~+85°C.
Insulation resistance: 800M ohms min. at 500VDC
Dielectric withstanding voltage: 500 VAC/1minute.
Contact resistance: 30m ohms max.
